

IQ-IJ322

Reactive Silk Satin

Coated, steamable silk. The surface is high-glossy. You can print with nearly any standard reactive ink. It is most suitable for manufacturing scarves, ties and women's wear. Steam the material after printing for bright colors and waterresistant.

Usability

- Reactive ink compatible
- For brilliant colors, ink settings must be optimized according to ink, printer and software instructions.
- Suitable for most large format thermal or piezo printers.

Indoor use for

- Fashion Design (scarves, ties...)
- Banners
- Flags
- Exhibit booths
- Indoor signs
- Shop decorations
- Shows
- Window displays
- Curtains
